Description

Overview

The Adjustable Spanners are versatile hand tools designed for tightening and loosening nuts, bolts, and fasteners of different sizes. The adjustable jaw mechanism allows a single spanner to accommodate a wide range of fastener dimensions, making it an essential tool for maintenance, assembly, repair, and general engineering applications.

Common Uses

The Banka Adjustable Spanners are widely used for tightening and loosening nuts, bolts, pipes, fittings, and other fasteners during machine maintenance, assembly, repair, plumbing, fabrication, and installation operations. They are essential hand tools for machine shops, automotive workshops, fabrication units, maintenance departments, construction sites, tool rooms, and general engineering facilities, where versatile fastener handling, secure gripping, and reliable performance are essential for efficient workshop and industrial operations.
