Features

- Precision-engineered Adjustable Tap Wrench
- Manufactured from high-quality alloy steel
- Adjustable jaws accommodate various tap sizes

- Secure clamping mechanism prevents tap slipping
- Heat-treated for enhanced strength and durability
- Ergonomic handles for comfortable operation
- Smooth adjustment for quick tap installation
- Corrosion-resistant surface finish
- Available in various sizes and tap capacities (Model Dependent)
- Suitable for continuous industrial use

Description

Overview

The Adjustable Tap Wrench is a precision hand tool designed to securely hold and operate hand taps for cutting internal threads in drilled holes. Its adjustable jaws accommodate a range of tap sizes, while the strong clamping mechanism provides a firm grip and excellent control during threading operations.

Common Uses

The Banka Adjustable Tap Wrench is widely used for holding and turning hand taps to create or repair internal threads in metal and engineering components. It is an essential threading tool for machine shops, fabrication workshops, automotive industries, maintenance departments, tool rooms, educational institutes, and precision engineering facilities, where secure tap holding, accurate thread cutting, adjustable capacity, and reliable manual operation are essential for efficient manufacturing and repair work.
