Features

- Heavy-duty cast iron or forged steel construction
- Precision-machined hardened steel jaws
- Strong clamping force for secure workholding
- Smooth-operating spindle with durable threads
- Replaceable jaw plates for extended service life

- Corrosion-resistant powder-coated finish
- Wide jaw opening for various workpiece sizes
- Rigid base for enhanced stability
- Easy operation with ergonomic handle
- Designed for continuous industrial use

Description

Overview

The Bench Vice is a heavy-duty workholding tool designed to securely clamp workpieces during machining, cutting, filing, drilling, grinding, welding, and assembly operations. Manufactured from high-quality cast iron or forged steel, it provides exceptional strength, stability, and durability for demanding industrial applications. Its precision-machined jaws ensure a firm grip while minimizing workpiece movement, making it an essential tool for workshops, tool rooms, and manufacturing industries.

Common Uses

The Banka Bench Vice is widely used for holding metal, wood, plastic, and other engineering materials during drilling, cutting, filing, grinding, welding, tapping, assembly, and repair operations. It is an indispensable workholding tool for machine shops, fabrication units, tool rooms, maintenance departments, educational institutes, automotive workshops, and manufacturing industries, where secure clamping, precision, and durability are essential for efficient and safe operations.
