Description

Overview

The C-Washer is a specialized workholding accessory designed for use with clamping studs, bolts, strap clamps, mould clamps, and machine-table fixtures. Its open C-shaped design allows quick installation and removal without completely removing the clamping stud or bolt, making it especially useful for frequent workholding setup changes.

Common Uses

The Banka C-Washer is widely used as a quick-change support washer in strap clamps, mould clamps, fixtures, and machine-table workholding systems. It is an essential workholding accessory for CNC machining centers, milling machines, drilling machines, mould and die workshops, tool rooms, fabrication units, and precision engineering facilities, where quick setup, secure clamping, efficient load distribution, and reliable workholding are essential.
