Features

- Precision-engineered Clamping Stud with Slot
- High-strength alloy steel construction
- Slotted design for flexible positioning
- Precision-machined threads
- Excellent thread engagement

- Heat-treated for enhanced strength and durability
- Suitable for heavy-duty clamping applications
- Compatible with nuts, washers, strap clamps, and mould clamps
- Available in various thread sizes and lengths (Model Dependent)
- Designed for repeated industrial use

Description

Overview

The Clamping Stud with Slot is a heavy-duty workholding fastener designed for securely mounting strap clamps, mould clamps, fixtures, jigs, and other clamping accessories on machine-tool tables. Its slotted design provides additional flexibility for positioning and adjustment during workholding setup.

Common Uses

The Banka Clamping Stud with Slot is widely used for securing strap clamps, mould clamps, fixtures, jigs, and workholding accessories on machine tables during milling, drilling, CNC machining, mould making, die manufacturing, and fabrication operations. Its slotted construction provides additional positioning flexibility, making it suitable for CNC machining centers, milling machines, drilling machines, machine shops, tool rooms, mould and die workshops, and precision engineering facilities, where strong clamping force, flexible setup, secure positioning, and reliable workholding are essential.
