Features

- Precision-engineered Combination Pliers
- Manufactured from high-quality forged alloy steel
- Serrated jaws for strong and secure gripping
- Hardened cutting edges for efficient wire cutting
- Heat-treated for enhanced strength and wear resistance

- Ergonomic non-slip handles for comfortable operation
- Excellent gripping and cutting performance
- Corrosion-resistant surface finish
- Available in various sizes (Model Dependent)
- Designed for continuous industrial use

Specifications

Name	COMBINATION PLIERS 8"
Type	Combination Pliers
Material	Hardened Steel
Jaw Type	Serrated Gripping Jaws
Cutting Edge	Integrated Wire Cutter
Handle Type	Ergonomic, Non-Slip Insulated Handles
Function	Gripping, Bending, Twisting, and Cutting Wires
Application	Electrical, Mechanical, and General Maintenance Work
Usage	Engineering Workshops, Machine Shops, and Industrial Applications
Approx weight	0.25

Description

Overview

The Combination Pliers are versatile hand tools designed for gripping, holding, bending, twisting, and cutting wires and small components. Their combination of serrated gripping jaws and integrated cutting edges makes them suitable for a wide range of electrical, mechanical, maintenance, and general workshop applications.

Common Uses

The Banka Combination Pliers are widely used for gripping, cutting, bending, twisting, and holding wires, cables, fasteners, and small components during electrical work, assembly, maintenance, repair, fabrication, and installation operations. They are essential hand tools for machine shops, electrical workshops, automotive industries, fabrication units, maintenance departments, construction sites, tool rooms, and precision engineering facilities, where secure gripping, efficient cutting, accurate handling, and reliable performance are essential for professional workshop operations.
