Features

- Precision-engineered Degree Vice
- Adjustable angular positioning
- Graduated degree scale for accurate setting
- Rigid and durable construction
- Hardened and precision-machined jaws
- Secure workpiece clamping
- Smooth angular adjustment
- Suitable for milling and drilling applications
- Excellent repeatability
- Available in different jaw sizes (Model Dependent)

Specifications

Name	DEGREE VICE
Approx weight	2

Description

Overview

The Degree Vice is a precision workholding accessory designed to securely hold workpieces at different angles during drilling, milling, cutting, and other machining operations. Its adjustable angular design allows the workpiece to be positioned accurately according to the required machining angle.

Common Uses

The Banka Degree Vice is widely used for holding workpieces at precise angles during milling, drilling, slotting, keyway cutting, taper machining, and other machining operations. It is an essential workholding accessory for milling machines, drilling machines, CNC machining centres, machine shops, tool rooms, production workshops, and precision engineering facilities, where accurate angular positioning, rigid workpiece clamping, repeatable setups, and reliable machining performance are essential.
