Description

Overview

The Empire Angle Machine Vice is a heavy-duty precision workholding tool designed to securely hold workpieces at fixed or adjustable angles during milling, drilling, grinding, and machining operations. Its rigid construction and precision-machined jaws provide excellent stability, accurate positioning, and reliable clamping performance.

Common Uses

The Banka Empire Angle Machine Vice is widely used for holding and positioning workpieces at precise angles during milling, drilling, grinding, machining, and inspection operations. It is an essential workholding accessory for machine shops, milling machines, drilling machines, tool rooms, fabrication workshops, automotive industries, production units, and precision engineering facilities, where accurate angular positioning, rigid clamping, and repeatable machining performance are essential for producing high-quality components.
