Features

- Precision-engineered Engineering Try Square
- Designed for accurate 90° angle checking

- Manufactured from high-quality hardened steel
- Precision-ground blade and stock
- Clearly marked graduations (Model Dependent)
- Rigid construction for reliable inspection
- Excellent dimensional stability
- Wear and corrosion-resistant finish
- Available in various sizes and blade lengths
- Designed for continuous industrial use

Specifications

Name	Size	Type	Material	Blade Type	Application	Usage	Approx weight
ENGINEERING TRY SQUARE 3"	3 inches	Try Square	Hardened Steel (model-dependent)	Straight Blade	Checking 90° Angles and Squareness	Engineering Workshops, Tool Rooms, Fitting Work, and Machining Operations	0.12
ENGINEERING TRY SQUARE 4"	4 inches	Try Square	Hardened Steel (model-dependent)	Straight Blade	Checking 90° Angles and Squareness	Engineering Workshops, Tool Rooms, Fitting Work, and Machining Operations	0.12
ENGINEERING TRY SQUARE 6"	6 inches	Try Square	Hardened Steel (model-dependent)	Straight Blade	Checking 90° Angles and Squareness	Engineering Workshops, Tool Rooms, Fitting Work, and Machining Operations	0.12
ENGINEERING TRY SQUARE 8"	8 inches	Try Square	Hardened Steel (model-dependent)	Straight Blade	Checking 90° Angles and Squareness	Engineering Workshops, Tool Rooms, Fitting Work, and Machining Operations	0.12
ENGINEERING TRY SQUARE 10"	10 inches	Try Square	Hardened Steel (model-dependent)	Straight Blade	Checking 90° Angles and Squareness	Engineering Workshops, Tool Rooms, Fitting Work, and Machining Operations	0.12
ENGINEERING TRY SQUARE 12"	12 inches	Try Square	Hardened Steel (model-dependent)	Straight Blade	Checking 90° Angles and Squareness	Engineering Workshops, Tool Rooms, Fitting Work, and Machining Operations	0.12

Description

Overview

The Engineering Try Square is a precision measuring and inspection tool designed for accurately checking 90° angles, squareness, and alignment of machined and fabricated components. It consists of a precision-ground blade and a robust stock that provides a reliable reference surface for checking the perpendicularity of workpieces.

Common Uses

The Banka Engineering Try Square is widely used for checking 90° angles, verifying squareness, aligning components, and inspecting machined and fabricated surfaces during manufacturing, fitting, machining, assembly, and quality control operations. It is an essential precision inspection tool for machine shops, CNC workshops, fabrication units, tool rooms, automotive industries, maintenance departments, educational institutes, and precision engineering facilities, where accurate squareness, proper alignment, and reliable dimensional inspection are essential for producing high-quality components.

The Banka promise

3-Year Warranty
Against manufacturing defects in major components.

Transit Damage Covered
Full responsibility for transport damage; safe packing free.

Fast Delivery
Ready-stock delivery across India in about 10 days.

Video-Call Support
Free start-up demo and quick remote technical help.

Terms & conditions

- All prices are in Indian Rupees and exclude GST; GST @ 18% is extra.
- Price validity: 7 days from the date of issue. Prices are taken live from ravimachines.com on that date.
- Warranty: 3-year warranty against manufacturing defects.
- Delivery: Free delivery, subject to Banka Machines' confirmation.
- Ready stock: 100% advance payment before dispatch; dispatched within 2 working days of full payment.
- Made to order: 50% advance on purchase order confirmation and 50% before dispatch.
- Accessory prices are standard catalogue prices; size-specific items (chucks, motors) are confirmed with your order.
