Features

- Precision-engineered socket design.
- Provides additional tool reach where required.
- Suitable for compatible machine tool setups.
- Designed for secure taper connections.
- Robust construction for industrial applications.

- Helps improve access to recessed work areas.
- Supports flexible tool mounting arrangements.
- Available in different sizes and taper configurations.
- Suitable for drilling and milling applications.
- Designed for regular workshop use.

Description

Overview

The Extension Socket is a precision-engineered machine tool accessory designed to extend the reach of compatible taper-mounted tools. It helps connect suitable tool holders or cutting tools to machine spindles when additional length or clearance is required for a machining setup.

Common Uses

The Extension Socket is commonly used in compatible machine tools to increase the reach of suitable taper-mounted tools or holders. It can help provide access to recessed areas and accommodate specific machining setups in drilling and milling operations. Engineering workshops, tool rooms, maintenance departments, and industrial manufacturing facilities use extension sockets to improve tooling flexibility. The correct taper combination, dimensions, tool compatibility, and operating limits should be verified before use to ensure safe and reliable machining performance.

The Banka promise

3-Year Warranty
Against manufacturing defects in major components.

Transit Damage Covered
Full responsibility for transport damage; safe packing free.

Fast Delivery
Ready-stock delivery across India in about 10 days.

Video-Call Support
Free start-up demo and quick remote technical help.

Terms & conditions

- All prices are in Indian Rupees and exclude GST; GST @ 18% is extra.
- Price validity: 7 days from the date of issue. Prices are taken live from ravimachines.com on that date.
- Warranty: 3-year warranty against manufacturing defects.
- Delivery: Free delivery, subject to Banka Machines' confirmation.
- Ready stock: 100% advance payment before dispatch; dispatched within 2 working days of full payment.
- Made to order: 50% advance on purchase order confirmation and 50% before dispatch.
- Accessory prices are standard catalogue prices; size-specific items (chucks, motors) are confirmed with your order.
