Description

Overview

The Feeler Gauge 26 Blade is a precision measuring tool designed for accurately measuring small gaps, clearances, and spaces between mating surfaces. It consists of 26 individually calibrated blades of different thicknesses, allowing users to determine clearance quickly and accurately. Manufactured from high-quality hardened spring steel, it provides excellent flexibility, wear resistance, and long service life.

Common Uses

The Banka Feeler Gauge 26 Blade is widely used for measuring and checking small gaps and clearances in valves, bearings, gears, machine components, spark plugs, engine parts, and mating surfaces during maintenance, assembly, machining, and quality control operations. It is an essential precision measuring tool for machine shops, automotive workshops, engine repair centers, tool rooms, maintenance departments, educational institutes, and precision engineering facilities, where accurate clearance measurement and reliable inspection are essential for maintaining proper machine performance.
