Features

- Precision-engineered Gear Pullers
- High-strength forged alloy steel construction
- Strong and rigid puller frame
- Adjustable jaws for different component sizes
- Hardened and precision-machined jaws

- Heavy-duty central forcing screw
- Secure grip for controlled component removal
- Available in 2-jaw and 3-jaw configurations (Model Dependent)
- Corrosion-resistant surface finish
- Available in various capacities and sizes (Model Dependent)

Specifications

Name	Type	Material	Jaw Type	Number of Jaws	Operating Mechanism	Construction	Application	Usage	Approx weight
GEAR PULLERS 6"	Three-Jaw Gear Puller	Hardened Steel	Adjustable Jaws	3	Screw-Type	Heavy-Duty Design	Removing Gears, Bearings, Pulleys, and Hubs from Shafts	Automotive Repair, Industrial Maintenance, and Engineering Workshops	0.45
GEAR PULLERS 8"	Three-Jaw Gear Puller	Hardened Steel	Adjustable Jaws	3	Screw-Type	Heavy-Duty Design	Removing Gears, Bearings, Pulleys, and Hubs from Shafts	Automotive Repair, Industrial Maintenance, and Engineering Workshops	0.45
GEAR PULLERS 10"	Three-Jaw Gear Puller	Hardened Steel	Adjustable Jaws	3	Screw-Type	Heavy-Duty Design	Removing Gears, Bearings, Pulleys, and Hubs from Shafts	Automotive Repair, Industrial Maintenance, and Engineering Workshops	0.45
GEAR PULLERS 12"	Three-Jaw Gear Puller	Hardened Steel	Adjustable Jaws	3	Screw-Type	Heavy-Duty Design	Removing Gears, Bearings, Pulleys, and Hubs from Shafts	Automotive Repair, Industrial Maintenance, and Engineering Workshops	0.45

Description

Overview

The Gear Pullers are heavy-duty mechanical tools designed for the safe and controlled removal of gears, bearings, pulleys, sprockets, hubs, bushes, and other tightly fitted components from shafts. Their adjustable jaws provide a secure grip around the component, while the central forcing screw applies controlled pulling force along the shaft axis.

Common Uses

The Banka Gear Pullers are widely used for removing gears, bearings, pulleys, sprockets, hubs, bushes, and other press-fitted components from shafts during machine maintenance, automotive repair, assembly, dismantling, and servicing operations. They are essential maintenance tools for machine shops, automotive workshops, industrial maintenance departments, fabrication units, tool rooms, production facilities, and precision engineering industries, where controlled pulling force, secure component gripping, safe removal, and reliable performance are essential.

The Banka promise

3-Year Warranty
Against manufacturing defects in major components.

Transit Damage Covered
Full responsibility for transport damage; safe packing free.

Fast Delivery
Ready-stock delivery across India in about 10 days.

Video-Call Support
Free start-up demo and quick remote technical help.

Terms & conditions

- All prices are in Indian Rupees and exclude GST; GST @ 18% is extra.
- Price validity: 7 days from the date of issue. Prices are taken live from ravimachines.com on that date.
- Warranty: 3-year warranty against manufacturing defects.
- Delivery: Free delivery, subject to Banka Machines' confirmation.
- Ready stock: 100% advance payment before dispatch; dispatched within 2 working days of full payment.
- Made to order: 50% advance on purchase order confirmation and 50% before dispatch.
- Accessory prices are standard catalogue prices; size-specific items (chucks, motors) are confirmed with your order.
