Description

Overview

The Steel Hand Vice is a compact and durable workholding tool designed for securely holding small workpieces during filing, drilling, tapping, cutting, assembly, and general fitting operations. Its forged steel construction provides excellent strength and rigidity, while the precision-machined jaws ensure a firm and reliable grip on the workpiece.

Common Uses

The Banka Steel Hand Vice is widely used for holding small workpieces securely during filing, drilling, tapping, cutting, deburring, assembly, and fitting operations. It is an essential workholding tool for machine shops, fabrication workshops, tool rooms, maintenance departments, automotive workshops, educational institutes, and precision engineering facilities, where secure clamping, easy handling, and reliable workpiece positioning are essential for accurate and efficient workshop operations.
