Features

- Designed for Keyway Cutting on Lathe Machines
- Available in 75 mm and 130 mm Clamping Capacities
- Holds Suitable Workpieces Securely During Machining
- Supports Keyway Cutting Using an End Mill Cutter

- Operates Through Lathe Cross-Slide Movement
- Suitable for Grooving Operations
- Can Be Used for Suitable Hole-Making Operations
- Hardened Mild Steel Clamping Plate
- Suitable for General Engineering Workshop Applications

Specifications

Name	Machine Compatibility	Clamping Capacity	Main Application	Additional Applications	Workpiece Type	Cutter Type	Operation	Clamping Plate	Approximate Weight
KEY WAY JAW 75mm	Lathe Machine	75 mm	Keyway Cutting	Grooving and Suitable Hole-Making Operations	Shafts and Other Suitable Workpieces	End Mill Cutter	By Moving the Lathe Cross Slide	Hardened Mild Steel	10 kg
KEY WAY JAW 130mm	Lathe Machine	130 mm	Keyway Cutting	Grooving and Suitable Hole-Making Operations	Shafts and Other Suitable Workpieces	End Mill Cutter	By Moving the Lathe Cross Slide	Hardened Mild Steel	15 kg

Description

Overview

The BANKA Key Way Jaw for Lathe Machine is designed to hold suitable workpieces securely during keyway cutting and other machining operations.

The workpiece is held in the jaw, while an end mill cutter mounted in the spindle performs the cutting operation through the movement of the lathe cross slide.

This accessory is suitable for keyway cutting, grooving and certain hole-making operations. It is available in two clamping capacity options: 75 mm and 130 mm, making it useful for a variety of engineering workshop applications.

It is a practical accessory for workshops looking to expand the machining capabilities of their lathe machines.

Common Uses

The Banka Keyway Jaw is widely used for securely holding shafts, hubs, pulleys, gears, bushes, and other cylindrical components during keyway cutting, slotting, and general machining operations. It is an essential workholding component for keyway attachments, machine shops, maintenance workshops, tool rooms, production units, and general engineering facilities, where secure clamping, accurate positioning, reduced vibration, and reliable machining performance are essential.

The Banka promise

3-Year Warranty
Against manufacturing defects in major components.

Transit Damage Covered
Full responsibility for transport damage; safe packing free.

Fast Delivery
Ready-stock delivery across India in about 10 days.

Video-Call Support
Free start-up demo and quick remote technical help.

Terms & conditions

- All prices are in Indian Rupees and exclude GST; GST @ 18% is extra.
- Price validity: 7 days from the date of issue. Prices are taken live from ravimachines.com on that date.
- Warranty: 3-year warranty against manufacturing defects.
- Delivery: Free delivery, subject to Banka Machines' confirmation.
- Ready stock: 100% advance payment before dispatch; dispatched within 2 working days of full payment.
- Made to order: 50% advance on purchase order confirmation and 50% before dispatch.
- Accessory prices are standard catalogue prices; size-specific items (chucks, motors) are confirmed with your order.
