Features

- Industrial LED machine lighting
- Bright and focused illumination
- Flexible arm / gooseneck for precise positioning
- Easy ON/OFF operation
- Robust construction

- Suitable for machine-tool environments
- Low heat generation
- Energy-efficient LED technology
- Available with magnetic, screw, or other mounting options (Model Dependent)
- Available with different IP protection ratings (Model Dependent)

MACHINE LAMP (Big)	1.2

Description

Overview

The Machine Lamp is an industrial lighting accessory designed to provide bright, focused illumination of the machining area on lathes, milling machines, CNC machines, drilling machines, grinders, and other machine tools. Flexible-arm designs allow the lamp to be positioned precisely where light is required, while industrial versions can provide protection against dust, oil, and coolant splashes.

Common Uses

The Banka Machine Lamp is widely used for illuminating machining areas, workpieces, cutting tools, and machine surfaces during turning, milling, drilling, grinding, inspection, machine setup, and maintenance operations. It is an essential workshop accessory for CNC machines, lathes, milling machines, drilling machines, grinders, machine shops, tool rooms, production workshops, and precision engineering facilities, where clear visibility, precise lighting, flexible positioning, energy efficiency, and reliable industrial performance are essential.
