Description

Overview

This file is a square in shape and slightly taper at the end. It is available in bastard, 2nd cut and smooth cut geometry. This file is used by machinists, fabricators etc. and it is ideal for use on wood, metal and plastic. Square file is used to enlarge square and rectangular openings, filing slots, key ways & other similar contours. It is manufactured as per IS 1931:2000, BS498:1960 & GGG- F 325 :1985

Common Uses

The Machinist File – Square is commonly used in engineering workshops, tool rooms, fabrication units, and maintenance departments for finishing square holes, rectangular slots, and internal corners. Its square profile makes it suitable for refining edges, removing burrs, and adjusting square-shaped openings. It is also useful for fitting machine components and finishing metal parts before assembly.
