Features

- Precision-engineered Open-End Strap Clamp
- Open-ended design for quick installation and removal

- Heavy-duty steel construction
- Strong and rigid clamping performance
- Flexible positioning on machine-table T-slots
- Suitable for use with T-bolts, studs, T-nuts, and nuts
- Precision-machined clamping surface
- Excellent resistance to wear and deformation
- Available in various sizes and capacities (Model Dependent)
- Designed for continuous industrial use

Description

Overview

The Open-End Strap Clamp is a heavy-duty workholding accessory designed to securely clamp workpieces and fixtures directly onto machine-tool tables. Its open-end design allows quick installation and removal without needing to completely remove the clamping stud, making it especially convenient for frequent setup and changeover operations.

Common Uses

The Banka Strap Clamp is widely used for securely clamping workpieces, fixtures, and components to machine tables during milling, drilling, shaping, boring, CNC machining, and fabrication operations. It is an essential workholding accessory for machine shops, CNC machining centers, milling machines, drilling machines, tool rooms, fabrication workshops, automotive industries, production units, and precision engineering facilities, where strong clamping force, flexible positioning, rigid workholding, and reliable machining performance are essential.
