Features

- Precision-engineered centre point design.
- Suitable for conventional lathe operations.
- Provides support for rotating workpieces.
- Helps maintain workpiece alignment during machining.
- Designed for compatible tailstock mounting.

- Robust construction for industrial applications.
- Suitable for general turning operations.
- Supports accurate machining setup.
- Simple and practical design for workshop use.
- Available in different sizes and tapers, depending on the model.

Description

Overview

The Plain Dead Centre is a precision-engineered machine tool accessory used to support and locate workpieces during turning and machining operations. It is commonly fitted into the tailstock of a lathe machine to provide support to the workpiece and help maintain alignment during machining.

Common Uses

The Plain Dead Centre is commonly used in lathe machines to support shafts, rods, and other cylindrical workpieces during turning operations. It is particularly useful when machining long components between centres, helping maintain alignment and stability. It is widely used in engineering workshops, tool rooms, maintenance departments, and industrial manufacturing facilities. Since a dead centre does not rotate with the workpiece, suitable lubrication and operating conditions are important to minimise friction and wear.

The Banka promise

3-Year Warranty
Against manufacturing defects in major components.

Transit Damage Covered
Full responsibility for transport damage; safe packing free.

Fast Delivery
Ready-stock delivery across India in about 10 days.

Video-Call Support
Free start-up demo and quick remote technical help.

Terms & conditions

- All prices are in Indian Rupees and exclude GST; GST @ 18% is extra.
- Price validity: 7 days from the date of issue. Prices are taken live from ravimachines.com on that date.
- Warranty: 3-year warranty against manufacturing defects.
- Delivery: Free delivery, subject to Banka Machines' confirmation.
- Ready stock: 100% advance payment before dispatch; dispatched within 2 working days of full payment.
- Made to order: 50% advance on purchase order confirmation and 50% before dispatch.
- Accessory prices are standard catalogue prices; size-specific items (chucks, motors) are confirmed with your order.
