Features

- Precision-engineered Quick Change Tool Post
- Rapid tool changing mechanism
- Quick-locking and unlocking system

- Excellent tool rigidity
- Accurate and repeatable tool positioning
- Adjustable tool height
- Precision-machined components
- Reduces machine setup time
- Suitable for multiple tool holders
- Available in different sizes and configurations (Model Dependent)

Description

Overview

The Quick Change Tool Post is a precision lathe accessory designed for rapid and accurate changing of cutting tools. Its quick-locking mechanism allows tool holders to be changed and repositioned quickly while maintaining consistent tool height and alignment.

Common Uses

The Banka Quick Change Tool Post is widely used for rapidly mounting and changing cutting tools during turning, facing, boring, threading, parting, knurling, and other lathe machining operations. It is an essential lathe accessory for centre lathes, production

workshops, machine shops, tool rooms, automotive industries, maintenance departments, and precision engineering facilities, where fast tool changes, accurate tool height, rigid tool holding, repeatable positioning, reduced setup time, and increased productivity are essential.
