Description

Overview

The Radius Gauge is a precision inspection tool designed for accurately checking and comparing the radius of concave and convex curved surfaces. It consists of precisely manufactured gauge leaves with different radius profiles, allowing quick verification of component radii during machining, fabrication, and quality control operations.

Common Uses

The Banka Radius Gauge is widely used for checking and verifying concave and convex radii on machined components, shafts, tools, dies, molds, fabricated parts, and curved profiles during manufacturing, machining, fitting, inspection, and quality control operations. It is an essential inspection tool for machine shops, CNC machining centers, tool rooms, mold and die workshops, automotive industries, fabrication units, educational institutes, and precision engineering facilities, where accurate radius checking and consistent dimensional verification are essential for maintaining high-quality manufacturing standards.

The Banka promise

3-Year Warranty
Against manufacturing defects in major components.

Transit Damage Covered
Full responsibility for transport damage; safe packing free.

Fast Delivery
Ready-stock delivery across India in about 10 days.

Video-Call Support
Free start-up demo and quick remote technical help.

Terms & conditions

- All prices are in Indian Rupees and exclude GST; GST @ 18% is extra.
- Price validity: 7 days from the date of issue. Prices are taken live from ravimachines.com on that date.
- Warranty: 3-year warranty against manufacturing defects.
- Delivery: Free delivery, subject to Banka Machines' confirmation.
- Ready stock: 100% advance payment before dispatch; dispatched within 2 working days of full payment.
- Made to order: 50% advance on purchase order confirmation and 50% before dispatch.
- Accessory prices are standard catalogue prices; size-specific items (chucks, motors) are confirmed with your order.
