Features

- Precision-engineered Round Die Stock Handle
- Designed for securely holding round dies
- High-strength alloy steel / forged steel construction

- Adjustable clamping screws for firm die holding
- Rigid body for controlled threading operations
- Ergonomic handles for improved grip and leverage
- Heat-treated for enhanced strength and wear resistance
- Corrosion-resistant surface finish
- Available in various sizes for different die diameters (Model Dependent)
- Suitable for continuous industrial use

Specifications

Name	Type	Material	Handle Type	Clamping Mechanism	Compatibility	Application	Usage	Approx weight
ROUND DIE STOCK HANDLE 13/16"	Round Die Holder	Steel	Double Handle	Screw-Type Locking	Suitable for Round Threading Dies	Holding and Rotating Dies for External Thread Cutting	Thread Cutting, Thread Repair, and Engineering Workshop Operations	0.1

Description

Overview

The Round Die Stock Handle is a precision hand tool designed to securely hold round dies during external thread cutting, thread repair, and maintenance operations. Its rigid body and adjustable die-clamping mechanism provide excellent control, stability, and torque while producing accurate and consistent threads.

Common Uses

The Banka Round Die Stock Handle is widely used for holding round dies to cut, repair, and restore external threads on bolts, rods, studs, shafts, and cylindrical components. It is an essential threading tool for machine shops, fabrication workshops, automotive industries, maintenance departments, tool rooms, educational institutes, and precision engineering facilities, where secure die holding, accurate thread cutting, controlled torque, and reliable manual threading are essential for efficient manufacturing and repair operations.
