Description

Overview

The Stub Milling Arbour – Flange Type ISO-40 is a precision machine-tool accessory designed for securely mounting compatible milling cutters on milling machines and machining centres equipped with an ISO-40 spindle interface. Its short arbour design provides rigid cutter support and is suitable for face milling and other compatible milling operations.

Common Uses

The Banka Stub Milling Arbour – Flange Type ISO-40 is used for mounting compatible milling cutters on ISO-40 milling machines and machining centres. Its compact design provides rigid cutter support for face milling, surface machining, and other suitable milling operations. It is suitable for machine shops, CNC machining facilities, production workshops, tool rooms, and precision engineering industries where secure cutter mounting, reduced tool overhang, machining stability, and reliable performance are essential.
