## Features

- Precision-engineered T-Bolt
- T-shaped head designed for machine-table T-slots
- High-strength alloy steel construction
- Precision-machined threads
- Accurate T-slot fit

- Heat-treated for enhanced strength and durability
- Suitable for clamps, fixtures, and workholding accessories
- Available in various lengths, thread sizes, and T-head dimensions (Model Dependent)
- Wear-resistant construction
- Designed for heavy-duty industrial use

## Description

### Overview

The T-Bolt is a precision workholding fastener designed to securely mount clamps, fixtures, vices, machine accessories, and workpieces onto the T-slots of machine-tool tables. Its T-shaped head fits into the machine-table T-slot, while the threaded shaft provides secure fastening with a nut.

### Common Uses

The Banka T-Bolt is widely used for mounting strap clamps, mould clamps, vices, fixtures, jigs, and other workholding accessories onto milling machine tables, CNC machine tables, drilling machine tables, and other T-slotted machine beds. It is an essential workholding component for machine shops, CNC machining centers, milling machines, drilling machines, tool rooms, mould and die workshops, fabrication units, and precision engineering facilities, where secure fastening, flexible positioning, rigid workholding, and reliable machining performance are essential.
