Description

Overview

The T-Slot Nut is a precision workholding component designed to securely mount clamps, fixtures, vices, workholding accessories, and machine-table attachments to the T-slots of milling machines, drilling machines, CNC machines, and other machine tools. Its T-shaped profile allows it to slide into the machine-table slot while the threaded hole provides secure fastening.

Common Uses

The Banka T-Slot Nut is widely used for mounting strap clamps, mould clamps, vices, fixtures, jigs, and other workholding accessories onto milling machine tables, CNC machine tables, drilling machine tables, and other T-slotted machine beds. It is an essential workholding component for machine shops, CNC machining centers, milling machines, drilling machines, tool rooms, fabrication workshops, mould and die industries, and precision engineering facilities, where secure fastening, flexible positioning, rigid workholding, and reliable machining performance are essential.
