Description

Overview

The Tool Bar Set is a precision cutting-tool set designed for turning, facing, boring, grooving, threading, and other lathe machining operations. It provides a convenient selection of tool bars for different machining requirements, helping operators perform multiple operations with improved accuracy and efficiency.

Common Uses

The Banka Tool Bar Set is widely used for turning, boring, facing, grooving, threading, profiling, and chamfering operations on lathes and compatible machine tools. It is an essential tooling solution for machine shops, tool rooms, production workshops, maintenance departments, automotive industries, and precision engineering facilities, where versatile machining capability, accurate cutting, secure tool holding, reduced setup time, and reliable tool life are essential.
